IMPORTANT NOTES:
» Not recommended for use in salt environments.
» Not for use with sleeper systems that are less than 2” thick.
» Always follow deck board manufacturer’s installation guidelines.

General Installation Recommendations:
• Always use two screws per joist or stair stringer.
• At board ends on the deck’s edge, install screws placed perpendicularly at the recommended distance, at minimum of 1” from the board end and edge, without splitting the board.

PARTS & TOOLS NEEDED

Installation Instructions:
• For best results pre-drill through deck board only, using 1/8” drill bit. When installing close to the end of the board pre-drilling is required.

• For best results use an 18V or higher cordless drill and the included HEXSTIX® driver bit, install fasteners at a 90° angle (perpendicular to the board). Always drive screw in one smooth, continuous motion.

• Screws are designed to be installed flush with decking surface.

DO NOT countersink screws.

Note: Never use Torx® ttap® bits in a HexStix® screw.
